EDUCATION

ABES Engineering College

2022 – 2026

Bachelor of Technology in Computer Science Engineering **CGPA: 8.07**

Ghaziabad, Uttar Pradesh

Ch. Chhabil Dass Public School, CBSE

2022

Class XII **Percentage: 93%**

Ghaziabad, Uttar Pradesh

Ch. Chhabil Dass Public School, CBSE

2020

Class X **Percentage: 94.4%**

Ghaziabad, Uttar Pradesh

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Database Management System
- Web Development
- Operating Systems
- Object Oriented Programming
- Software Engineering

PROJECTS

Digital Gold Wallet | Angular, Spring Boot, PostgreSQL, JWT Authentication

Apr 2026 – May 2026

- Developed a full-stack digital gold trading platform inspired by fintech applications like SafeGold with secure JWT-based authentication and role-based access control for Admins, Users, and Vendors.
- Implemented features for buying/selling virtual gold, requesting physical gold delivery, vendor registration, branch management, and customer transaction handling using RESTful APIs.

Hotel Booking Management System 🚀 | Angular, Spring Boot, PostgreSQL

Apr 2026

- Built and deployed a full-stack hotel reservation management system with secure user authentication, room availability tracking, and online booking functionalities for customers.
- Deployed the frontend on Vercel with backend and database services hosted on Render for real-time accessibility and testing.
- Designed admin functionalities to manage hotel rooms, monitor booking/payment details, and update room categories including single bedroom, double bedroom, and suites.

Learning Management System (LMS) 🚀 | MongoDB, Express.js, React.js, Node.js

Aug 2025

- Created a MERN-stack based learning platform supporting Teacher and Student roles with secure authentication and course management functionalities.
- Enabled teachers to create/manage courses and lectures, while students could access preview classes, purchase courses, and track learning progress dynamically.

ACHIEVEMENTS

Problem Solving: Solved 170+ coding problems across LeetCode, Code360, and HackerRank covering Data Structures and Algorithms.

HackerRank Badges: Earned 3 star badges in Problem Solving, Python, and C Language on HackerRank.

Technical Development: Built multiple full-stack applications using Angular, Spring Boot, MERN Stack, and PostgreSQL.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C, C++

Frontend: Angular, React.js, HTML, CSS, Bootstrap

Backend: Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Eclipse

EXTRACURRICULAR

Event Coordination: Served as a member of the Discipline Team during college technical and cultural events, assisting in event coordination, crowd management, and smooth execution of activities.

Communication & Presentation: Actively participated in project presentations and technical discussions, demonstrating strong communication and teamwork abilities.
