EDUCATION

ABES Engineering College

2022 – 2026

Bachelor of Technology in Computer Science Engineering CGPA: 8.1

Ghaziabad, Uttar Pradesh

Ch. Chhabil Dass Public School, CBSE

2022

Class XII Percentage: 93%

Ghaziabad, Uttar Pradesh

Ch. Chhabil Dass Public School, CBSE

2020

Class X Percentage: 94.4%

Ghaziabad, Uttar Pradesh

INTERNSHIP

Capgemini Exceller Edge Fellowship Program

Jan 2026 – May 2026

Software Development Fellowship

Remote

- Completed an industry-focused Java Full Stack fellowship covering Java, Spring Boot, Angular, PostgreSQL, REST APIs, Java 8 features, and software development best practices.
- Built backend applications using Spring Boot with PostgreSQL and developed responsive Angular interfaces integrated through REST APIs.
- Strengthened problem-solving skills by practicing Data Structures and Algorithms in Java while working with layered architecture and CRUD-based applications.

PROJECTS

Digital Gold Wallet 🗝️ 🔗 | Angular, Spring Boot, PostgreSQL, JWT Authentication Apr 2026 – May 2026

- Developed a full-stack digital gold trading platform inspired by SafeGold with secure JWT authentication and role-based access control for Admins, Users, and Vendors.
- Implemented virtual gold trading, physical gold requests, vendor registration, branch management, wallet management, and transaction handling using RESTful APIs.
- Deployed the Angular frontend on Vercel with Spring Boot backend and PostgreSQL database hosted on Render for secure cloud-based access.

Hotel Booking Management System 🗝️ 🔗 | Angular, Spring Boot, PostgreSQL Apr 2026

- Built and deployed a full-stack hotel reservation management system with secure authentication, room availability tracking, and online booking functionalities.
- Deployed the frontend on Vercel with backend and PostgreSQL database hosted on Render for real-time accessibility.
- Designed admin functionalities to manage rooms, booking/payment details, and room categories including single, double, and suite rooms.

Learning Management System (LMS) 🗝️ 🔗 | MongoDB, Express.js, React.js, Node.js Aug 2025

- Created a MERN-stack learning platform supporting Teacher and Student roles with secure authentication and course management.
- Enabled teachers to create/manage courses and lectures, while students could preview, purchase, and track course progress dynamically.

ACHIEVEMENTS

Problem Solving: Solved 170+ coding problems across LeetCode, Code360, and HackerRank covering Data Structures and Algorithms.

HackerRank Badges: Earned 3 star badges in Problem Solving, Python, and C Language on HackerRank.

Technical Development: Built multiple full-stack applications using Angular, Spring Boot, MERN Stack, and PostgreSQL.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C, C++

Frontend: Angular, React.js, HTML, CSS, Bootstrap

Backend: Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Eclipse
